

# LOGGING INTO THE KINGDOM APP USING OKTA

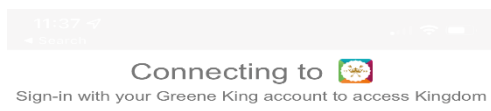

V0.1

## USING OKTA TO SIGN INTO THE KINGDOM APP

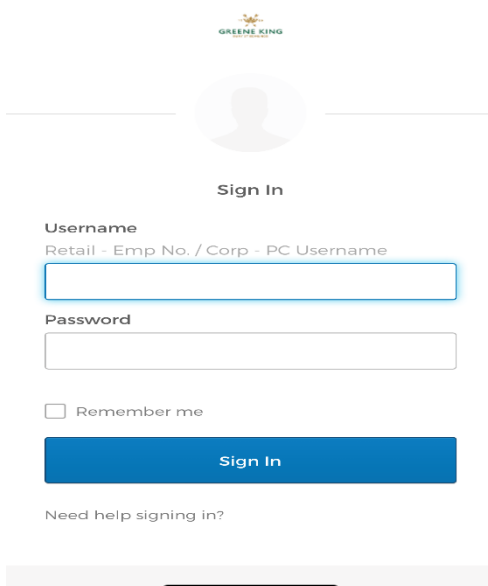

Open the Kingdom app on the device – iOS / Android

On the Log in page – Click GreeneKing Okta button at the bottom of the screen

Enter your Okta log in details

For Corporate users with a Greene King email address this will be your PC / GK email username and the password

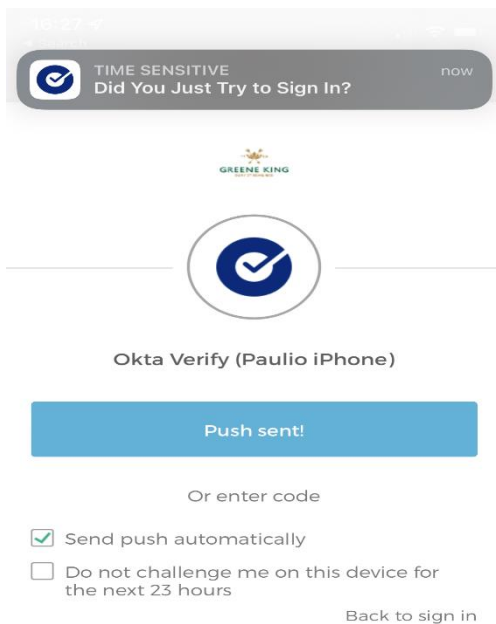

For Example:

JSmithI or JSmithI.GM (General Managers)

For Retail users / Non GK system users

This will be your employee number and the password set when creating your Okta account

Click 'Sign In'

If you have notifications on your phone enabled, you can approve the Push Notification from the pop up

Click 'Yes, It's me'

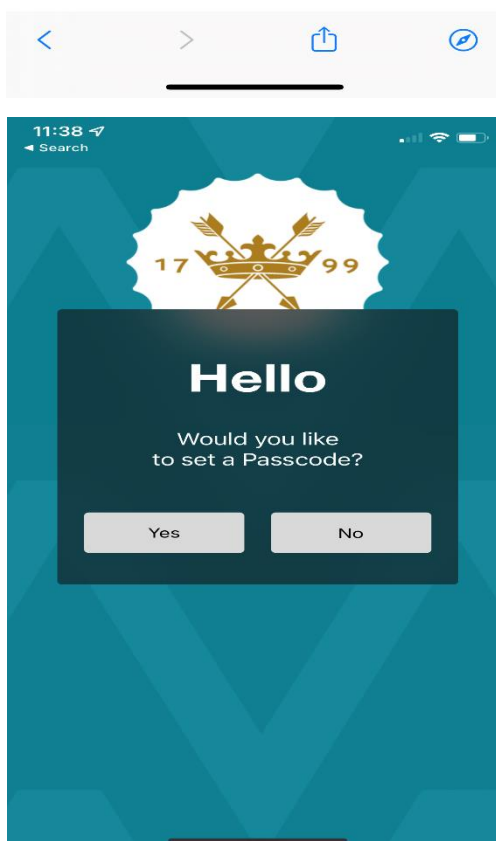

Kingdom should authenticate and then take you to the passcode page.

If push notification does not appear  
Open the Okta Verify App on the device

You should see a prompt – Did you just try to Sign in

Click 'Yes, It's me'

Switch back to the Kingdom app and it should authenticate and take you to the passcode page.

You can choose to set a 4-digit passcode to log into Kingdom from this point if required.

After setting a passcode or clicking No you will then be signed into the Kingdom App

The app may also offer Biometric log in (Fingerprint, facial recognition) as an option to set up at this point.

Any problems please email – [OKTA@greeneking.co.uk](mailto:OKTA@greeneking.co.uk) or call 0800 731 1799 Option 4 (Monday-Friday 09:00-17:00)
